2. Books order for AML Branch and other Branches New Edition Books.

New branch AML is introduced in this academic year 2021-2022. So need to procure prescribed books. New editions of existing books also to be procured.

3. Improve the Library Usage after Covid-19 (suggestions from members)

It is found that visits by students and staff for reference reduced. So following covid norms strictly, visits for students and staff need to be improved and in this regard authorities may give circular.

4. Other Topics. 4(a) Book Racks Shortage.

Older versions and updated versions of books are to be arranged in existing racks and these racks are not sufficient and so new racks have to be purchased.

- 4.(b) Separate Server to e. books.

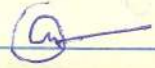

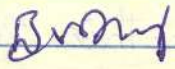

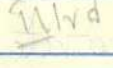

Existing server seems overloaded with e. books and e. Journals, so separate server need to be provided.

4(c) Library Software (Bees ERP) not working properly. present Library software works on Bees ERP which is suitable for library operations - reports are not generated properly so software like KOHA need to be procured for better utilization of library resources.
